*The degree candidates in this program were applicants for degrees as of May 1, 2017. Distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2016 semester and may be adjusted based on coursework from Spring 2017.

The August 2016 and December 2016 degree recipients precede the list of May 2017 degree candidates in each section.
A History of Final Exercises
at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 198-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first “Public Day” (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, “confirm” their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in school and department ceremonies.
The Academic Procession

The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

In celebration of the University’s bicentennial, the Class of 2017 will wear a commemorative zipper pull with their Final Exercises regalia. The bicentennial design was inspired by Thomas Jefferson’s original renderings for the Rotunda. Within the design are seminal references to architectural elements in the Academical Village: the serpentine walls can be seen in the curves of the number two; the profile of the Rotunda in the middle zero; and the aerial view of the Rotunda dome in the final zero. The University student body selected the mark by popular vote. The University of Virginia’s Bicentennial Commemoration is a celebration of UVA’s achievements, a recognition of the imperfections of its past, and a visualization of its future.
Deborah E. McDowell is the Alice Griffin Professor of Literary Studies at the University of Virginia. She also serves as the Director of the Carter G. Woodson Institute for African-American and African Studies.

Ms. McDowell received a B.A. degree in English literature from Tuskegee University in 1972. She earned an M.A. degree in American literature and a Ph.D. degree in American and African-American literature from Purdue University in 1974 and 1979, respectively. Ms. McDowell served on the faculty at Colby College as an assistant professor and associate professor of English from 1979 through 1987. She joined the faculty at the University of Virginia in 1987.

Ms. McDowell is a leading figure in the development of African-American women’s literature and feminist critical theory. She founded the African-American Women Writers Series for Beacon Press and served as its editor from 1985-1993. Ms. McDowell was one of many editors who published the inaugural Norton Anthology of African American Literature. Her publications include ‘The Changing Same’: Studies in Fiction by African-American Women, and Leaving Pipe Shop: Memories of Kin, The Punitive Turn, as well as numerous articles, book chapters, and scholarly editions.

Ms. McDowell was featured in Unearthed and Understood, a documentary produced by the President’s Commission on Slavery and the University at UVA, and in A Good Man, a documentary on the career of dancer and choreographer Bill T. Jones. She was elected to the Raven Society in 1998 and was awarded an honorary doctorate from Purdue University in 2006.

Academic Recession, *The Good Old Song*

*We request that the audience remain in place until the academic recession has passed.*
Robert C. Pianta became dean of the University of Virginia's Curry School of Education in June 2007. He is the Novartis US Foundation Professor of Education, a professor of psychology, and founding director of the Center for Advanced Study of Teaching and Learning at UVA.

Mr. Pianta earned a B.S. degree and M.A. degree in special education from the University of Connecticut in 1977 and 1978, respectively. He began his career as a middle school special education teacher in the late 1970s. Mr. Pianta earned a Ph.D. degree in Psychology from the University of Minnesota prior to joining the faculty of the Curry School of Education in 1986.

Mr. Pianta's research and policy interests focus on the intersection of education and human development. His work has been influential in advancing the notion of teacher-student interactions and relationships and documenting their contributions to students' development. He has authored or co-authored more than 300 articles, 50 chapters, and 10 books. Mr. Pianta has led research and training grants totaling over $60 million.

Mr. Pianta is past Editor of the Journal of School Psychology and associate editor for AERA Open. An internationally recognized expert in both early childhood education and K-12 teaching and learning, Mr. Pianta has consulted with foundations, universities, federal agencies, and governments. He was named a Fellow of the American Education Research Association and received the Distinguished Alumni Award from the University of Minnesota in 2016.

DOCTORS OF PHILOSOPHY
BIOMEDICAL ENGINEERING
Matthew Bryon Biggs
Dissertation: Novel Computational Tools for Linking Genotypes to Microbial Community Phenotypes

Adam Joseph Dixon
Dissertation: Microbubble Formulations for Photacoacoustic Imaging and Sonothrombolysis Applications

Joshua L. Heuslein
Dissertation: Regulation of Atherosclerosis by Mechanosensitive MicroRNAs and DNA Methylation: A Potential Epigenetic Approach for Treating Peripheral Arterial Disease

Kelse F Timbie
Dissertation: Ultrasound-Based Therapies for the Treatment of Cancer

CHEMICAL ENGINEERING
Erc Christopher Dybeck
Dissertation: Capturing the Role of Temperature and Entropy in Crystal Polymorphs Through Molecular Simulations

Jing Guo
Dissertation: Unfolding and Aggregation of Monoclonal Antibodies During Cation Exchange Chromatography

Kehua Lin
Dissertation: Anti-Coking Materials for Steam Crackers

Shaojie Zhang
Dissertation: Understanding Process Performance Parameters in a Two-Step Monoconal Antibody Chromatographic Purification Process

CIVIL ENGINEERING
Robert Moses Klinger
Dissertation: Identifying Unsafe Driving in Connected Vehicle Environments and Its Implications for Infrastructure Providers

COMPUTER ENGINEERING
Kevin Joseph Leach
Dissertation: Transparent System Introspection in Support of Analyzing Stealthy Malware

Wei Zhang
Dissertation: Scrutinizing Resource Utilization for High Performance and Low Energy Computation

COMPUTER SCIENCE
Juhu Ranjan
Dissertation: It Takes Two: Exploring Interactions Between Smart Objects and Wearables to Implicitly Identify and Authenticate Object Users

Jian Xiang
Dissertation: Interpreted Formalism: Towards System Assurance and the Real-World Semantics of Software

ELECTRICAL ENGINEERING
Xiaoyu Hu
Dissertation: The Use of Impedance Spectroscopy in Characterizing Low Voltage Electrowetting-on-Dielectric

Christian Alexander Rothenbach
Dissertation: Optical Properties of Multi-Microgratings, Their Replication and Applications

ENGINEERING PHYSICS
Micah James Schable
Dissertation: Radiation Effects on Airless Bodies in Space: Radiolysis, Sputtering, and Sintering in Regoliths

MATERIALS SCIENCE AND ENGINEERING
Jatin Man Amatya
Dissertation: Synthesis and Characterization of Nano-to-Mesoscale Ordered Structures in the Si1-xGex Alloy System

Leslie Gail Bland
Dissertation: Corrosion of Fusion Welded Magnesium-Aluminum Alloy, A231: Effects of Microstructure and Composition in Isolated Weld Zones

Gopalakrishnan Ramalingam
Dissertation: Investigation of Semiconductor and Metal-Metal Oxide Surface Nanostructures by Scanning Tunneling Microscopy/Spectroscopy

Jayendra Srinivasan
Dissertation: A Quantitative Framework Connecting the Critical Factors Determining the Stability of Localized Corrosion

MECHANICAL AND AEROSPACE ENGINEERING
Ann Marie Bailey
Dissertation: Injury Assessment for the Human Leg Exposed to Axial Impact Loading

Sourabh Boruah
Dissertation: A Viscoelastic Model for High Strain Rate Loading of the Human Calvarium

Long Di
Dissertation: Unbalance Compensation of AMB Systems with Input Delay: A Truncated Predictor Feedback Based Output Regulation Approach
Brian McCormack Foley  
Dissertation: Dynamic Control of Thermal Transport via Phonon Scattering at Ferroelastic Domain Walls

Ashutosh Giri  
Dissertation: The Role of Electronic and Vibration Scattering on Thermal Transport Across Multiple Interfaces in Nanostuctures

Matthew Morrow Engelhard  
Dissertation: Adaptive Algorithms for Personalized Health Monitoring

Jason Scott Remer  
Dissertation: Engineering, Education, and Infrastructure: Empowering the World’s Most Vulnerable

Andrew E Todd  
Dissertation: Multi-Market Trading: Simulations and Empirical Analysis

School of Nursing

Conferred August 10, 2016

Doctor of Nursing Practice

Katharine Leigh George

Capstone: Do Interprofessional Simulations Increase Knowledge Retention and Perceptions of Teamwork Skills in a Surgical Trauma Burn ICU Setting?

School of Nursing

Conferred December 30, 2016

Doctor of Nursing Practice

Mary Margaret Deivert

Capstone: The Response Capability Between Intrahospital Settings with Quality and Nursing Teamwork to Reduce Moral Distress in the Intensive Care Unit

Masters of Science in Nursing

Patricia Ann Cowden

Conferred December 30, 2016

Doctors of Nursing Practice

Mary Margaret Deivert

Capstone: An Evaluation of Risk Factors for Exuberation Failure in Surgical Patients in Intensive Care

Patrick Hill

Capstone: The Impact of Journal Clubs on Intensive Care Nurses’ Self-Report of Implementing Evidence into Practice

Kathryn K. Ward

Capstone: Reducing Readmissions for the MI Patient with Early Access to Multidisciplinary Team Care

Master of Science in Nursing

Holly Lynn Cuccarese Roach

Conferred May 21, 2017

Doctors of Nursing Practice

Cheri Smith Blevins

Capstone: Educational Intervention to Improve Delirium Recognition by Nurses

Gordon Tyrone Briscoe

Capstone: Nursing Telephone Follow-Up to Reduce 30-day Readmissions and Post-Discharge Complications for the Adult Hemodialysis Patient

Terri Szabo Clinger

Capstone: Maternal Satisfaction and Experience with Skin to Skin Contact Immediately After Cesarean Birth: Implications for Practice

Michelle Erlf

Capstone: Promoting Patient Preferences Through Nurse-Prompted Elicitation of Daily Goals

Kelley Marie Henson

Capstone: Military Children with Attention Deficit Hyperactivity Disorder (ADHD): Maximizing Adherence to Clinical Practice Guidelines

Monique Susan Jesionowski

Capstone: Emergency Department Left Without Being Seen Rates and Staff Perceptions Post-Implementation of a Rapid Medical Evaluation and a Provider in Triage

Nicole Elizabeth Kahler

Capstone: Identifying Patterns of Fatigue in Head and Neck Cancer Patients Post-Curative Intent Treatment

Judy Crummett Kaufman

Capstone: Chronic Kidney Disease: Early Education Intervention

Cheri Smith Blevins

Capstone: Interprofessional Simulation and Improvement in Teamwork, Collaboration and Communication

Nicole Marie Nelson

Capstone: Evaluating an Intervention to Reduce Moral Distress in the Intensive Care Unit

Katelyn Marie Rybicki

Capstone: Improving Handoff Quality and Nursing Teamwork Between Intrahospital Settings with Transfer Checklists

FAIR: Finals on the Lawn, school and department ceremonies at fair-weather sites  
INCLEMENT: Finals on the Lawn, school and department ceremonies at inclement-weather sites  
SEVERE: Finals in John Paul Jones Arena, school and department ceremonies at severe-weather sites
The Lawn, Central Grounds, & Hospital

Bus stop for accommodative shuttles on Saturday and Sunday – McCormick Road in front of Special Collections Library.
The Good Old Song

That good old song of Wah-hoo-wah,
   We’ll sing it o’er and o’er;
It cheers our hearts and warms our blood
   To hear them shout and roar.
We come from old Virginia
   Where all is bright and gay;
Let’s all join hands and give a yell
   For the dear old UVA.
