* The degree candidates in this program were applicants for degrees as of May 11, 2012. The deans of the University’s schools will make any necessary changes in the awarding of diplomas and/or the conferral of degrees and report them to the Office of the University Registrar for the official records. In addition, distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2011 semester and may be adjusted based on coursework from Spring 2012.

The August 2011 and December 2011 degree recipients precede the list of May 2012 degree candidates in each section.

Katherine A. “Katie” Couric is an award-winning journalist and TV personality, tireless advocate for cancer research and awareness, and New York Times best-selling author. She is well-known for her unprecedented 15-year tenure as co-anchor of NBC News’ Today from 1991 until 2006 and for becoming the first solo female anchor of a national nightly news broadcast, as anchor and managing editor of the CBS Evening News with Katie Couric from 2006 to 2011. At CBS News, Ms. Couric also contributed to 60 Minutes, CBS Sunday Morning, and primetime specials. She now serves as a special correspondent for ABC News, contributing to ABC World News, Nightline, 20/20, Good Morning America, This Week, and primetime specials. Her new daily syndicated daytime talk show, Katie, will premiere on September 10th.

Ms. Couric grew up in Arlington and was graduated from the University of Virginia with honors in 1979. While at the University, she was associate editor of the Cavalier Daily and a Lawn resident. She earned a B.A. degree in English Language and Literature and began her broadcast journalism career as a desk assistant at ABC News in Washington, D.C., soon after her graduation. Over the next 10 years, she worked as an assignment editor, associate producer, producer, and political correspondent for CNN, and a reporter for television stations in Miami and Washington, D.C., before joining NBC News in 1989 as deputy Pentagon reporter. In June 1990, she was named NBC’s first national correspondent.

Over the past two decades, Ms. Couric has covered the most important news stories around the world. She has been recognized with numerous awards for her interviewing and reporting skills, including the prestigious Edward R. Murrow Award for Best Newscast for the CBS Evening News with Katie Couric twice, the Walter Cronkite Award for Special Achievement for “National Impact on the 2008 Campaign”, the Al Neuharth Award for Excellence in the Media, the George Foster Peabody Award, and Alfred I. duPont Awards for her work individually and for a series she conceived for the CBS Evening News with Katie Couric. She also has received six Emmy awards.

After losing her husband to cancer in 1998, Ms. Couric became an advocate for cancer research and awareness. She is a co-founder of Stand Up To Cancer, an organization that has raised nearly $200 million to accelerate research that can get new therapies to patients quickly. She launched the National Colorectal Cancer Research Alliance with the Entertainment Industry Foundation and cancer activist Lilly Tartikoff to fund cutting-edge research and generate awareness about the life-saving value of screening for colorectal cancer. Ms. Couric also has supported the Emily Couric Clinical Cancer Center here at the University, named for her late sister, who was a journalist and writer before becoming a Virginia state senator.

Ms. Couric lives in New York City and has two daughters.

Academic Recession, The Good Old Song

We request that the audience remain in place until the academic recession has passed. The presentation of diplomas will follow at the locations noted in this program. Degree candidates who do not receive their diplomas at school or departmental ceremonies may receive them at the Office of the University Registrar in Carruthers Hall after 2 p.m., Monday, May 21.
A History of Final Exercises at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 193-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first “Public Day” (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, “confirm” their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in “diploma ceremonies,” where the diplomas are presented to the graduates by the deans.
The Academic Procession

The Procession
The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown
The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood
A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap
The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

Explain why the text belongs to a natural language format. The text is a list of dissertation titles and authors, likely from a university or research institution. The text is formatted in a way that is typical for academic publications, with titles, author names, and keywords. The use of titles and abbreviations such as “Masters of Engineering” and “Masters of Science” indicates that this text is related to graduate studies. The structure and organization of the text, including the clear separation of sections for different categories of titles, further suggests that it is designed to be read naturally, as part of a document that would be distributed to students or researchers.

The Good Old Song

That good old song of Wah-hoo-wah,

We’ll sing it o’er and o’er;

It cheers our hearts and warms our blood

To hear them shout and roar.

We come from old Virginia

Where all is bright and gay;

Let’s all join hands and give a yell

For the dear old UVA.
