*The degree candidates in this program were applicants for degrees as of May 9, 2014. The deans of the University’s schools will make any necessary changes in the awarding of diplomas and/or the conferral of degrees and report them to the Office of the University Registrar for the official records. In addition, distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2013 semester and may be adjusted based on coursework from Spring 2014.

The August 2013 and December 2013 degree recipients precede the list of May 2014 degree candidates in each section.
Finals Speaker

The Honorable Ray Mabus

Ray Mabus is the 75th United States Secretary of the Navy, and leads America's Navy and Marine Corps. As Secretary of the Navy, Mabus is responsible for conducting the affairs of the Department of the Navy, including recruiting, organizing, equipping, training, and mobilizing troops. Additionally, he oversees the construction and repair of naval ships, aircraft, and facilities, and formulates and implements policies and programs consistent with the national security policies established by the President and the Secretary of Defense. Secretary Mabus is responsible for an annual budget greater than $170 billion and leadership of almost 900,000 people. Throughout his tenure, Secretary Mabus has prioritized improving the quality of life of Sailors, Marines, and their families, decreasing the Department's dependence on fossil fuels, strengthening partnerships, and revitalizing the Navy's shipbuilding program.

Secretary Mabus has made increasing the size of the naval fleet and protecting the industrial base a top budget priority of the Department. During his tenure, the Navy went from building fewer than five ships a year to having more than 40 ships under contract. He also has directed the Navy and Marine Corps to change the way they use, produce, and acquire energy, and set an aggressive goal that by no later than 2020, the Navy and Marine Corps will obtain at least 50% of their energy from alternative sources. In 2012 the Navy demonstrated the Great Green Fleet, a carrier strike group in which every participating U.S. Navy ship and aircraft operated on alternative energy sources including nuclear energy and biofuels. To prepare service members and their families for the high tempo operations of today's Navy and Marine Corps, Secretary Mabus announced the “21st Century Sailor and Marine” initiative in 2012, designed to build and maintain the most resilient and ready force possible.

Prior to joining the administration of President Barack Obama, Secretary Mabus served in a variety of top posts in government and the private sector. In 1988, he was elected Governor of Mississippi. As the youngest governor of Mississippi in more than 100 years at the time of his election, he stressed education and job creation. He passed B.E.S.T. (Better Education for Success Tomorrow), one of the most comprehensive education reform programs in America, and was named one of Fortune Magazine’s top ten education governors. He was appointed Ambassador to the Kingdom of Saudi Arabia for the Clinton Administration in 1994. During his tenure as Ambassador, a crisis with Iraq was successfully averted and Saudi Arabia officially abandoned the boycott of United States businesses that trade with Israel. Secretary Mabus also was Chairman and CEO of Foamex, a large manufacturing company, which he led out of bankruptcy in less than nine months, paying all creditors in full and saving equity.

Secretary Mabus is a native of Ackerman, Mississippi, and received a Bachelor’s Degree in English, summa cum laude, from the University of Mississippi, followed by a Master’s Degree in Political Science from Johns Hopkins University. He served as a Surface Warfare Officer in the U.S. Navy aboard the cruiser USS Little Rock before earning a Law Degree, magna cum laude, from Harvard Law School.

Academic Recession, The Good Old Song

We request that the audience remain in place until the academic recession has passed. The presentation of diplomas will follow at the locations noted in this program. Degree candidates who do not receive their diplomas at school or departmental ceremonies may receive them at the Office of the University Registrar in Carruthers Hall after 2 p.m., Monday, May 19.
A History of Final Exercises at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 195-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first “Public Day” (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, “confirm” their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in “diploma ceremonies,” where the diplomas are presented to the graduates by the deans.
The Academic Procession

The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

The Good Old Song

That good old song of Wah-hoo-wah,
   We’ll sing it o’er and o’er;
It cheers our hearts and warms our blood
   To hear them shout and roar.
We come from old Virginia
   Where all is bright and gay;
Let’s all join hands and give a yell
   For the dear old UVA.
