* The degree candidates listed in this program were applicants for degrees as of May 13, 2011. The deans of the University's schools will make any needed changes in awarding the diplomas. The August 2010 and December 2010 degree recipients precede the listing of the May 2011 degree candidates in each section.
Finals Speaker

Robert F. McDonnell

Robert F. McDonnell is the 71st governor of the Commonwealth of Virginia. Since taking office in January 2010, Governor McDonnell has focused on job creation and economic development, and has enacted new policies to help spur economic growth in the Commonwealth.

In the 2011 General Assembly session, Governor McDonnell was successful in moving forward his higher education plan that creates the pathway to 100,000 more degrees being awarded in the Commonwealth over the next 15 years. The plan will make college more affordable and accessible for Virginia students. Governor McDonnell has also led on major education reforms to bring more charter schools to the Commonwealth and expand virtual-learning programs.

Governor McDonnell has dedicated his life to public service. He served 21 years in the U.S. Army, both active duty and reserve, retiring as a Lieutenant Colonel in 1997. Upon graduating from law school in 1989 he served as a Virginia Beach prosecutor. Governor McDonnell was elected to the Virginia House of Delegates in 1991 and served 14 years representing Virginia Beach. He was elected as the 44th attorney general of Virginia in 2005.

Governor McDonnell was raised in Fairfax County, Virginia. He graduated from the University of Notre Dame (BBA), Boston University (MSBA), and Regent University (JD and MA). He and his wife Maureen have been married for 34 years. They have five children. Their oldest daughter, Jeanine, served in the U.S. Army, including a tour of duty in Baghdad, Iraq in 2005-2006. Their twin sons, Sean and Bobby, are undergraduate students at the University.

Academic Recession, The Good Old Song

We request that the audience remain in place until the academic recession has passed. The presentation of diplomas will follow at the locations noted in this program. Degree candidates who do not receive their diplomas at school or departmental ceremonies may receive them at the Office of the University Registrar in Carruthers Hall after 2 p.m., Monday, May 23.
A History of Final Exercises 
at the University of Virginia  
by Raymond C. Bice, Professor Emeritus

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 192-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first “Public Day” (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, “confirm” their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in “diploma ceremonies,” where the diplomas are presented to the graduates by the deans.
The Academic Procession

The Procession
The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown
The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood
A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap
The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

Contrary to popular belief, the document does not contain any content that requires translation or additional processing. It seems to be a list of doctoral dissertations and theses, possibly from a university or similar institution, detailing various research projects and their authors. Each dissertation or thesis is categorized under different fields such as Engineering, Computer Science, and Chemical Engineering, indicating a diverse range of academic disciplines covered. The list includes the titles of the dissertations or theses, the names of the corresponding authors, and in some cases, the names of the advisors or supervisors. The content is presented in a straightforward, organized manner, with each entry clearly delineated for easy reference or further study. Furthermore, the document is formatted in a manner typical for academic publications, with clear section titles and consistent formatting of the entries, which aids in the coherence and readability of the information presented. This structured approach not only facilitates easier navigation through the document but also highlights the diversity and breadth of research being conducted in these fields.

The Good Old Song

That good old song of Wah-hoo-wah,
We'll sing it o'er and o'er;
It cheers our hearts and warms our blood
To hear them shout and roar.

We come from old Virginia
Where all is bright and gay;
Let's all join hands and give a yell
For the dear old UVA.
