A History of Final Exercises at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 200-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first "Public Day" (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, "confirm" their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in school and department ceremonies.

The Academic Procession

The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees. Generally, the colors of the tassels represent the principal fields of learning and are described below.

Bryant Cameron Webb, M.D., J.D.

B. Cameron Webb is an assistant professor of public health and medicine at UVA. He also serves as the Director of Health Policy and Equity in the Department of Public Health Sciences and practices clinically as a hospitalist in the Department of Medicine.

Dr. Webb received a B.A. in Interdisciplinary Studies from the University of Virginia, where he was an Echols Scholar. He also received a J.D. and health law certificate from Loyola University Chicago School of Law and an M.D. from Wake Forest School of Medicine, prior to completing a residency in internal medicine at New York-Presbyterian Hospital/Weill Cornell Medicine. He served as an Assistant Professor of Medicine at Johns Hopkins Hospital in the Division of General Internal Medicine and as the Chief Executive Officer of EquityRx, a health equity organization he founded in order to address social determinants of health through a combination of research, education, and advocacy.

Dr. Webb's research focuses on the intersection of health and social justice. He is a passionate champion for health equity and is committed to advocating for the needs of underserved and marginalized communities. In 2016, Dr. Webb was selected for the yearlong White House Fellowship Program. This program, founded in 1964, is one of America's most prestigious appointments for leadership and public service, and provides gifted and motivated Americans with firsthand experience in governing the nation. As a White House Fellow under both the Obama and Trump administrations, Dr. Webb worked on President Obama's "My Brother's Keeper" initiative, launched in 2014 to address persistent opportunity gaps facing boys and young men of color. He also served on the White House Health Care Team and helped to lead a White House Drug Pricing Task Force.

Dr. Webb is a recipient of the 40 Under 40 Leaders in Minority Health Award from The National Minority Quality Forum. He previously served as national president of the Student National Medical Association, as student trustee of the National Medical Association, as a Legislative Extern for the American Medical Association, and as an intern at the Maya Angelou Center for Health Equity and the Joint Center for Political and Economic Studies. He is currently a member of the board of directors of Doctors for America and of the Boys and Girls Club of Central Virginia.

Dorrie K. Fontaine

Dorrie Fontaine is the Sadie Heath Cabaniss Professor of Nursing and Dean of the School of Nursing. She is UVA's fifth dean of nursing since the school's founding in 1901. Prior to her 2008 appointment at UVA, Ms. Fontaine held associate deanships and taught at the University of California San Francisco and Georgetown University School of Nursing.

Ms. Fontaine received a B.S. in nursing from Villanova University, a M.S. from the University of Maryland, and a Ph.D. from the Catholic University of America in Washington, D.C. In 2006, she completed a Management and Leadership in Education Program at the Harvard Graduate Institute of Higher Education.

Ms. Fontaine's career spans more than 40 years as a critical care and trauma nurse. Her teaching has centered on the care of critically ill patients and preventing burnout and creating resilience in nurses and physicians. As dean, she has promoted healthy workplace environments, created opportunities for collaboration, and increased diversity in both the faculty and student populations. She has also been a strong advocate for interprofessional education in which nurses and physicians train together. In 2009, Ms. Fontaine founded UVA's Compassionate Care Initiative to alleviate human suffering through developing compassionate people and systems.

Ms. Fontaine is a member of the American Academy of Nursing. She is a former president of the American Association of Critical Care Nurses and received its Lifetime Member Award. Among many other honors, she is a recipient of the Presidential Citation from the Society of Critical Care Medicine, the Distinguished Lectureship Award from the Society of Trauma Nurses, and the Silver Hope Award from the Blue Ridge chapter of the Multiple Sclerosis Society. Her alma mater, Villanova, honored her with a Medallion for Contributions to the Profession, and the University of Maryland named her a Distinguished Alumna and presented her with the Visionary Pioneer Award. UVA's Seven Society has recognized Ms. Fontaine's "exemplary leadership" and she has received both the UVA Health System's Martin Luther King, Jr. Award and UVA's Lifetime Learning Outstanding Faculty Speaker Recognition Award. In 2019, the School of Nursing was awarded the first annual Healthy Work Environment Award from Sigma, the International Nursing Honor Society. Since 2011, she has lived with her family in Pavilion IX on the west side of UVA's historic Lawn.

UNIVERSITY *of* VIRGINIA

B I C E N T E N N I A L

In celebration of the University's bicentennial, members of the Class of 2019 are wearing a commemorative zipper pull with their Final Exercises regalia. The bicentennial design was inspired by Thomas Jefferson's original renderings for the Rotunda. Within the design are seminal references to architectural elements in the Academical Village: the serpentine walls can be seen in the curves of the number two; the profile of the Rotunda in the middle zero; and the aerial view of the Rotunda dome in the final zero. The University student body selected the mark by popular vote. The University of Virginia's Bicentennial Commemoration is a celebration of UVA's achievements, a recognition of the imperfections of its past, and a visualization of its future.

Doctors of Philosophy

Kristen Nicole Balogh
Experimental Pathology
Dissertation: *The Role of Macrophage Migration Inhibitory Factor (MIF) in Anti-Tumor Immune Responses and Metastatic Niche Formation in Breast Cancer*

Anne Lewis Carlton
Biochemistry and Molecular Genetics
Dissertation: *The Role of CBF β in Ovarian Cancer*

Alexandra Rose Harris
Experimental Pathology
Dissertation: *Understanding the Role of the Lymphatic Vasculature in Chemotherapeutic Efficacy and Cancer Progression*

Ryan Michael Haskins
Experimental Pathology
Dissertation: *KLF4 Has an Unexpected Protective Role in Perivascular Cells within the Microvasculature*

Christine Elizabeth Hulseberg
Microbiology
Dissertation: *Mechanism of Lassa Virus Entry and Identification of Low Molecular Weight Drugs with Potential to Inhibit Both Lassa and Ebola Virus Entry*

Maciej Jan Jagielnicki
Biophysics
Dissertation: *Structure/Function Analysis of Human Integral Membrane Proteins: Connexin 26 and the ZnT8 Zinc Transporter*

Xueyao Jin
Biophysics
Dissertation: *Cryo-EM Structural Analysis of Pannexin 1 Channels*

Ali Khalid Khan
Biophysics
Dissertation: *Structure and Dynamics of Gap Junction Membrane Channels*

Shahzad Shahbaz Khan
Neuroscience
Dissertation: *A Modulatory Role for Alpha-Synuclein During Ectopic Neuronal Cell Cycle Re-Entry: Implications for Alzheimer's Disease and Parkinson's Disease*

Aldo Nascimento
Microbiology
Dissertation: *Ras Regulation of*

Mitochondrial Fission Promotes Tumor Growth

Scott Minoru Seki
Neuroscience
Dissertation: *Understanding the Metabolic Basis for T-Cell-Mediated Inflammation in the Central Nervous System*

Jacqueline Suzanne Stevens
Microbiology
Dissertation: *Neutrophilic Inflammation Initiated by Gonococcal-Endocervical Cell Interactions and Amplified by Migrating Neutrophils*

Bruno Takao Real Karia
Biochemistry and Molecular Genetics
Dissertation: *The Role of Long Noncoding RNAs APTR and LINC00152 in Gliomas*

Prasad Vijaykrishna Trivedi
Cell Biology
Dissertation: *Regulation of Kinetochores and Inner-Centromere Structure and Function by the Chromosome Passenger Complex During Mitosis*
