

One Hundred *and* Eighty-Fifth
FINAL EXERCISES

UNIVERSITY
of VIRGINIA

The Lawn
May 18, 2014

The University of Virginia is grateful to the 392nd Army Band from Fort Lee, under the direction of Chief Warrant Officer Five Charles H. Vollherbst, for its participation in Final Exercises.

*The degree candidates in this program were applicants for degrees as of May 9, 2014. The deans of the University's schools will make any necessary changes in the awarding of diplomas and/or the conferral of degrees and report them to the Office of the University Registrar for the official records. In addition, distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2013 semester and may be adjusted based on coursework from Spring 2014.

The August 2013 and December 2013 degree recipients precede the list of May 2014 degree candidates in each section.

Finals Speaker

The Honorable Ray Mabus

Ray Mabus is the 75th United States Secretary of the Navy, and leads America's Navy and Marine Corps. As Secretary of the Navy, Mabus is responsible for conducting the affairs of the Department of the Navy, including recruiting, organizing, equipping, training, and mobilizing troops. Additionally, he oversees the construction and repair of naval ships, aircraft, and facilities, and formulates and implements policies and programs consistent with the national security policies established by the President and the Secretary of Defense. Secretary Mabus is responsible for an annual budget greater than \$170 billion and leadership of almost 900,000 people. Throughout his tenure, Secretary Mabus has prioritized improving the quality of life of Sailors, Marines, and their families, decreasing the Department's dependence on fossil fuels, strengthening partnerships, and revitalizing the Navy's shipbuilding program.

Secretary Mabus has made increasing the size of the naval fleet and protecting the industrial base a top budget priority of the Department. During his tenure, the Navy went from building fewer than five ships a year to having more than 40 ships under contract. He also has directed the Navy and Marine Corps to change the way they use, produce, and acquire energy, and set an aggressive goal that by no later than 2020, the Navy and Marine Corps will obtain at least 50% of their energy from alternative sources. In 2012 the Navy demonstrated the Great Green Fleet, a carrier strike group in which every participating U.S. Navy ship and aircraft operated on alternative energy sources including nuclear energy and biofuels. To prepare service members and their families for the high tempo operations of today's Navy and Marine Corps, Secretary Mabus announced the "21st Century Sailor and Marine" initiative in 2012, designed to build and maintain the most resilient and ready force possible.

Prior to joining the administration of President Barack Obama, Secretary Mabus served in a variety of top posts in government and the private sector. In 1988, he was elected Governor of Mississippi. As the youngest governor of Mississippi in more than 100 years at the time of his election, he stressed education and job creation. He passed B.E.S.T. (Better Education for Success Tomorrow), one of the most comprehensive education reform programs in America, and was named one of Fortune Magazine's top ten education governors. He was appointed Ambassador to the Kingdom of Saudi Arabia for the Clinton Administration in 1994. During his tenure as Ambassador, a crisis with Iraq was successfully averted and Saudi Arabia officially abandoned the boycott of United States businesses that trade with Israel. Secretary Mabus also was Chairman and CEO of Foamex, a large manufacturing company, which he led out of bankruptcy in less than nine months, paying all creditors in full and saving equity.

Secretary Mabus is a native of Ackerman, Mississippi, and received a Bachelor's Degree in English, summa cum laude, from the University of Mississippi, followed by a Master's Degree in Political Science from Johns Hopkins University. He served as a Surface Warfare Officer in the U.S. Navy aboard the cruiser USS Little Rock before earning a Law Degree, magna cum laude, from Harvard Law School.

College and Graduate School of Arts & Sciences, *Dean Meredith Jung-En Woo*

Final Words to the Class, *Ms. Sullivan*

Academic Recession, *The Good Old Song*

We request that the audience remain in place until the academic recession has passed. The presentation of diplomas will follow at the locations noted in this program. Degree candidates who do not receive their diplomas at school or departmental ceremonies may receive them at the Office of the University Registrar in Carruthers Hall after 2 p.m., Monday, May 19.

A History of Final Exercises at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 195-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first "Public Day" (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, "confirm" their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in "diploma ceremonies," where the diplomas are presented to the graduates by the deans.

The Academic Procession

The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

Processional Order of Degree Candidates

Schools	Color of Mortarboard Tassel & Banner
Darden Graduate School of Business Administration	Tan
School of Medicine	Green
School of Law.....	Purple
Graduate School of Arts & Sciences.....	Black
McIntire School of Commerce	Tan
School of Engineering & Applied Science	Deep Orange
School of Architecture	Blue Violet
Curry School of Education	Light Blue
School of Continuing & Professional Studies	White
School of Nursing	Light Orange
Frank Batten School of Leadership and Public Policy	Peacock Blue
College of Arts & Sciences.....	Black

Conferred August 9, 2013

Doctors of Philosophy BIOMEDICAL ENGINEERING

Joseph Patrick Kilroy
 Dissertation: *Intravascular Ultrasound Transducers for Microbubble-Mediated Therapy*

Joshua Keith Meisner
 Dissertation: *Toward Functional Revascularization: Regulation of Vascular Network Remodeling Through Altered Hemodynamics*

Katherine McKenzie Parker
 Dissertation: *Regional Mechanics of Demand Ischemia During Cardiac Stress Testing*

Bryan Andrew Piras
 Dissertation: *Bioengineering Adeno-Associated Viral Vectors for Cardiac-Targeted Gene Therapy Applications*

Meihan Wang
 Dissertation: *Spiral Coronary Artery Wall Imaging: New Methods and Applications*

CHEMICAL ENGINEERING

Kyudam Oh
 Dissertation: *Development of Microfluidic Devices for Genetic Analysis: Continuous Flow Infrared-Mediated PCR (cfIR-PCR) and Microwave Thermal Cycling Systems*

Xin Ren
 Dissertation: *Dynamic Emergence of Neuronal Synchrony During Kindling*

Xiaopu Wang
 Dissertation: *Application of Microfluidics for the Study of Bacterial Chemotaxis to NAPL in Porous Media*

CIVIL ENGINEERING

Kristen Marie Cannatelli
 Dissertation: *Rethinking Dredging: A Quantitative Analysis of Dam Removal Techniques*

Jonathan Edward Mellor
 Dissertation: *Modeling the Complexities of Water, Hygiene and Health in Limpopo, South Africa*

Jaehyun So
 Dissertation: *Development of a Surrogate Safety Assessment Framework Incorporating Traffic Simulator, Vehicle Dynamics, Driver Warning, GPS/INU, and V2V/V2I*

Yongli Zhang
 Dissertation: *Sustainability Decision Making for Renewable Biomass Energy Production: Integrated Algal Bioenergy and Environmental Remediation Systems*

COMPUTER ENGINEERING

Chenguang Xu
 Dissertation: *Two-Way Data Exchange in Satellite Communication*

COMPUTER SCIENCE

Chih-Hao Shen
 Dissertation: *Efficient Secure Two-Party Computation Against Malicious Adversaries*

Luther A. Tychonievich
 Dissertation: *Providing Guaranteed Behaviors for Groups of Low-Capability Mobile Agents*

ELECTRICAL ENGINEERING

Jiaxing Guo
 Dissertation: *Adaptive Fault-Tolerant Control of Multivariable Systems with Applications to NASA Generic Transport Model*

Huihui Wang
 Dissertation: *Design, Microfabrication and Characterization of Capillary Force Actuators*

MECHANICAL AND AEROSPACE ENGINEERING

Brett Frederick Bathel
 Dissertation: *Application of Molec-*

ular Tagging Velocimetry to Study Laminar-to-Turbulent Transition in Hypersonic Boundary Layers

John Thomas Gaskins
 Dissertation: *Determining Mechanical Properties at the Micron Scale Using Microfabricated Freestanding Structures*

SYSTEMS ENGINEERING

Eva Andrijcic
 Dissertation: *Intrinsic Meta-Modeling of Systems of Systems: A Study in Bridge Infrastructure Management*

Samuel Harris Huddleston
 Dissertation: *Geographic Probability Algorithms with Security Force Applications*

erature and Learning to Forget the Round Table

Xiaoxiao Tang
Statistics
Dissertation: *Forecasting Economic Variables Using Markov Quantile Regression Approach*

Kaycie Kuss Tayler
Psychology
Dissertation: *Reactivation of Neural Ensembles During Memory Retrieval*

Esther Joy Thatcher
Nursing
Dissertation: *Spatial and Psychosocial Influences on Food Access in Rural Appalachia*

Benjamin Robert Thiede
Neuroscience
Dissertation: *Developmental Patterning in the Inner Ear*

Samantha Lauren Tornello
Psychology
Dissertation: *Division of Labor Among Gay Fathers: Associations with Parent, Couple, and Child Adjustment*

Huzeyfe Torun
Economics
Dissertation: *Policy Impacts on Early Labor Market Outcomes*

Jennifer Lynn Trautmann
Nursing
Dissertation: *Relationships Among Moral Distress, Level of Practice Independence and Intent to Leave of Emergency Department Nurse Practitioners*

Jonathan Edward Verity
Religious Studies
Dissertation: *The Tidiness of Chaos: Tradition and Innovation in the Sadak Nyelam De Zhi Ritual at Triten Norbutse Monastery*

Michael Gathonjia Wairungu
Anthropology
Dissertation: *"A Language of Many Hats": The Rise of Sheng and Other Linguistic Styles Among Urban Youth in Kenya*

Lisa May Walker
Astronomy
Dissertation: *Galaxy Evolution in Compact Groups*

Heather Rose Weidner
History
Dissertation: *The Ocean in the Atlantic: British Experience and Imagination in an Imperial Sea, ca. 1600-1800*

Rose Edith Wellman
Anthropology
Dissertation: *Feeding Moral Relations: The Making of Kinship and Nation in Iran*

Vera Katelyn Wilde
Government
Dissertation: *Neutral Competence? Polygraphy and Technology-Mediated Administrative Decisions*

Yuan Xue
Statistics
Dissertation: *Biomarker-Based Dose-Finding Designs for Single- or Multiple-Agent Phase 1 Trials*

Xiaozeng Yang
Biology
Dissertation: *Data Tell the Truth; MicroRNA-Mediated Gene Networks in Plants*

Laura Ann Glick Yoder
Nursing
Dissertation: *Multilevel Contextual Influences and Nonuse of Alcohol, Tobacco, and Other Drugs: A Latent Class Analysis of Substance-Free Youth*

Chunqing Yuan
Chemistry
Dissertation: *Photochemical Effects on the Ices and Dust Grains of Astronomical Importance*

Alexander George Zestos
Chemistry
Dissertation: *Novel Carbon-Based Microelectrodes for Neurotransmitter Detection*

Lichao Zhang
Chemistry
Dissertation: *Characterization of Protein Sequence and Post-Translational Modifications Using Mass Spectrometry*

Min Zhong
Physics
Dissertation: *Quantitative Dynamic PET Imaging of the Heart: From Mouse to Man*

The Good Old Song

That good old song of Wah-hoo-wah,

We'll sing it o'er and o'er;

It cheers our hearts and warms our blood

To hear them shout and roar.

We come from old Virginia

Where all is bright and gay;

Let's all join hands and give a yell

For the dear old UVA.
