**The degree candidates in this program were applicants for degrees as of May 1, 2015. Distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2014 semester and may be adjusted based on coursework from Spring 2015.*

The August 2014 and December 2014 degree recipients precede the list of May 2015 degree candidates in each section.

A History of Final Exercises at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 196-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first "Public Day" (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, "confirm" their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in school and department ceremonies.

The Academic Procession

The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

Processional Order of Degree Candidates

Saturday, May 16

Schools	Color of Mortarboard Tassel & Banner
Graduate School of Arts & Sciences	Black
College of Arts & Sciences	Black

Sunday, May 17

Schools	Color of Mortarboard Tassel & Banner
Darden Graduate School of Business Administration	Tan
School of Medicine	Green
School of Law	Purple
Curry School of Education	Light Blue
McIntire School of Commerce	Tan
Frank Batten School of Leadership and Public Policy	Peacock Blue
School of Architecture	Blue Violet
School of Nursing.....	Light Orange
School of Continuing & Professional Studies.....	White
Data Science Institute	Science Gold
School of Engineering & Applied Science.....	Deep Orange

Finals Speaker

Saturday, May 16, 2015

The Honorable Terry McAuliffe

Terry McAuliffe is the 72nd Governor of Virginia. Since being sworn into office, Governor McAuliffe has aggressively focused on building a new Virginia economy. He has conducted a series of trade missions, including two to China. As a result, he has brought thousands of jobs and billions of dollars in investment to communities across the Commonwealth.

To ensure that Virginia remains competitive, the Governor has implemented major economic development initiatives designed to strengthen the Commonwealth's pro-business climate, ensure efficient investment in world-class infrastructure, and develop a 21st-century workforce capable of meeting the needs of emerging businesses and industries.

Governor McAuliffe is committed to making sure that in a new Virginia economy, every person will have an equal right to succeed, regardless of his or her race, gender, religion, or sexual orientation. In his first executive order, he banned discrimination against LGBT state employees, and he has worked to make sure Virginia is in compliance with a federal court ruling that overturned the state's previous ban on same-sex marriage.

The Governor is committed to fighting for the nearly 800,000 Virginia veterans who have served their country. He expanded the Virginia Values Veterans initiative, which encourages employers to recruit, hire, train, and retrain veterans. He has also worked to facilitate partnerships that increase Virginia veterans' access to health care, and he is committed to ending veteran homelessness in Virginia.

Governor McAuliffe developed a 10-step plan, A Healthy Virginia, to improve and expand access to health care for more than 200,000 Virginians, including veterans, individuals with serious mental illness, low-income pregnant women, and working families.

He has made unprecedented progress on the restoration of civil rights to rehabilitated felons who have completed their sentences and paid their debt to society.

The Governor has worked with a bipartisan coalition of state leaders and educators to reform the Standards of Learning, eliminating five tests and creating an independent commission to make the tests work better for all Virginians.

Governor McAuliffe has fulfilled his promise to block any legislation that would erode women's access to quality health care. He directed the Virginia Board of Health to revisit onerous regulations that threatened to shut down women's health clinics, ensuring that these facilities remain available to provide essential services like cancer screenings and regular checkups.

Governor McAuliffe attended Catholic University and Georgetown Law School. He is a lifelong entrepreneur who started his first business at age 14 and went on to create more than two dozen companies. At age 30, he became the nation's youngest bank chairman.

Governor McAuliffe previously served as Chairman of the Democratic National Committee from 2001 to 2005, was co-chairman of President Bill Clinton's 1996 re-election campaign, and was chairman of Hillary Clinton's 2008 presidential campaign. He wrote a New York Times bestselling biography about his life in politics and business entitled *What a Party! My Life Among Democrats: Presidents, Candidates, Donors, Activists, Alligators, and Other Wild Animals*.

He and his wife Dorothy were married in 1988 and have five children.

Finals Speaker

Sunday, May 17, 2015

Robert F. Bruner

Bob Bruner is the eighth Dean of the Darden Graduate School of Business Administration. Mr. Bruner has authored and co-authored 22 books and over 300 case studies, and has served as the founding Executive Director of Darden's Batten Institute for Entrepreneurship and Innovation. As an award-winning faculty member and international lecturer and researcher, Mr. Bruner has revitalized business educational curricula and literature, advanced the mission and success of the Darden School, and set a new precedent for business management teaching quality.

During his time as Dean of the Darden School, Mr. Bruner and his team led two curriculum design efforts to focus on entrepreneurship, innovation, globalization, and diversity. His research and teaching foci include mergers and acquisitions, corporate finance, and financial panics. Author and co-author of *Case Studies in Finance*, *The Panic of 1907: Lessons Learned from the Market's Perfect Storm*, *Deals from Hell: M&A Lessons that Rise Above the Ashes*, and *The Portable MBA*, Mr. Bruner has established himself in business management literature for years to come. He and his team raised \$150 million for the Darden School through a capital campaign and launched Darden's MBA for Executives and the Global MBA for Executives.

Born in Chicago, Mr. Bruner received a B.A. from Yale University in 1971, followed by M.B.A. and D.B.A. degrees from Harvard University, respectively, in 1974 and 1982. Between degrees, he worked as a loan officer and investment analyst at the First Chicago Corporation. After returning to Harvard to work on his D.B.A., Mr. Bruner began teaching a finance class to part-time undergraduate students at Northeastern University, inspiring him to pursue academia as a permanent career. In 1982, he moved to Charlottesville and joined Darden as an assistant professor.

Mr. Bruner is the Charles C. Abbott Professor of Business Administration and Distinguished Professor of Business Administration at the Darden School, and had served as a faculty member for 23 years before assuming his role as Dean in 2005. As Founding Executive Director of Darden's Batten Institute, he helped establish a fellows program and encouraged the creation of new courses – more recently, expanding Darden's Business Incubator, which supports early business ventures with access to funding and an entrepreneurial community of faculty and students.

Outside of the Darden School, Mr. Bruner served as a member of the Board of Directors for the Graduate Management Admission Council, which administers the GMAT. He also served as Chair of the Board of the Consortium for Graduate Study in Management, an alliance of 15 leading business schools and top corporations that aims to enhance diversity in business education and leadership.

A social media pioneer, Mr. Bruner (@Bob_Bruner) is a prolific tweeter and blogger, who shares his passion for business, his students, and his James River kayaking adventures, among other things. Mr. Bruner transformed the accessibility of the Dean's office, hosting nights of "Monopoly with the Dean" at his home, celebrating Thanksgiving with international students, and attending Darden's First Coffee with students. He and his wife Bobbie live in Charlottesville and have two sons. In July 2015, Mr. Bruner will step down from his position as Dean and embark on a one-year research leave before returning to the classroom. Dean Bruner's efforts in global engagement, commitment to students, and technological innovation have advanced U.Va.'s leadership in the teaching of business administration.

School of Engineering & Applied Science

Conferred August 12, 2014

Doctors of Philosophy

BIOMEDICAL ENGINEERING

Dan Lin
Dissertation: *Anatomical, Functional, and Molecular Imaging of Left Ventricular Myocardial Infarction in Mice Using High Frequency Ultrasound*

Li Zhao
Dissertation: *Accuracy of Arterial Spin Labeling in Magnetic Resonance Imaging*

CHEMICAL ENGINEERING

Li Fei
Dissertation: *Alternatives to Pt as*

the Electrode Catalysts for Polymer Electrolyte Membrane Fuel Cells

Qiaohua Tan
Dissertation: *Theoretical Insights into the Catalytic Hydrogenolysis of Biomass Derived Cyclic Ethers and Polyols over Metal and Alloy Promoted Particles in Aqueous Systems*

CIVIL ENGINEERING

Amir Gheitasi
Dissertation: *Performance Evaluation of Damage-Integrated Composite Steel Girder Highway Bridges*

Jia Hu
Dissertation: *Transit Signal Priority with Connected Vehicle Technology*

Peng Patrick Su
Dissertation: *Highway Reservation System: Models, Simulations, and Implementation Discussions*

COMPUTER SCIENCE

Tanima Dey
Dissertation: *ReSense: A Unified Framework for Improving Performance and Reliability in Multicore Architectures*

S. M. Shahriar Nirjon
Dissertation: *A General-Purpose, Energy-Efficient, and Context-Aware Acoustic Event Detection Platform for Mobile Devices*

ELECTRICAL ENGINEERING

Matthew Foss Bauwens
Dissertation: *Micromachined On-Water Probes for Characterization of Terahertz Devices and Circuits*

Jonathan Frederick Bolus
Dissertation: *Design of mm-Sized Wirelessly Powered Sensors*

Jie Xing
Dissertation: *Energy Efficiency of Neural Information Processing*

MECHANICAL AND AEROSPACE ENGINEERING

Kristin M. Busa
Dissertation: *Development of Tunable Diode Laser Absorption Tomography and Application to Scramjet Engines*

Sae Woong Kil
Dissertation: *Numerical Analysis of Fluid-Structure Interactions in an Air or Helium-Filled Hard Disk Drive*

Adam J Malcom
Dissertation: *The Mechanical Response of a Hybrid Foam Glass-Epoxy Composite Corrugated Cellular Structure Sandwich Panel*

Chao Qin
Dissertation: *Simulation of Spray-Enhanced Compressed Air Energy Storage for Wind Turbines*

Brian E. Rice
Dissertation: *Characterization of a Dual-Mode Scramjet via Stereoscopic Particle Image Velocimetry*

Richard Nelson Salaway
Dissertation: *The Effects of Local Structure on Thermal Transport in Carbon Nanotube Networks*

SYSTEMS ENGINEERING

Justin Michael DeVoge
Dissertation: *Preparation, Exchange, and Utilization: A Three-Phase Approach Toward Improving Resident Physician Handoffs*

Yue Zhang
Dissertation: *Stochastic Simulation Optimization for Districting Problems with Application to Police Patrol District Design*

Conferred December 30, 2014

Doctors of Philosophy

BIOMEDICAL ENGINEERING
Ali Haider Dhanaliwala
Dissertation: *In Situ Microbubble Production via Flow-Focusing Microfluidic Devices as a Means to Achieve Large Transiently-Stable Microbubbles to Improve Image Contrast and Drug Delivery*

Geoffrey Gale Handsfield
Dissertation: *MRI and Computational Modeling of In Vivo Muscletendon Architecture and Function*

Nivedita Kikkeri Naresh
Dissertation: *Myocardial Ischemia Without Obstructive Coronary Artery Disease: Perfusion MRI in Mouse Models*

Sunil Unnikrishnan
Dissertation: *Red Blood Cells and Disturbed Hemodynamics in Microbubble Targeting*

CHEMICAL ENGINEERING

Jacob A. Irwin
Dissertation: *In Vitro and In Vivo Characterization of Novel Small-Molecule Alzheimer's Disease Amyloid-Beta Therapies*

Juan A. Lopez-Ruiz
Dissertation: *Decarbonylation of Carboxylic Acids over Supported Metal Catalysts*

Tarl Albert Vetter
Dissertation: *Step-Induced pH Gradients Generated with Mixed Resin Beds for Protein Chromatography*

Yige Wu
Dissertation: *Protein and VLP*

¹ Distinction ² High Distinction ³ Highest Distinction ⁴ Honors ⁵ High Honors ⁶ Highest Honors ⁷ Distinguished Majors Program

School of Engineering & Applied Science

Adsorption on Perfusion Chromatography Media and Monoliths

CIVIL ENGINEERING

Sampson Kwasi Asare

Dissertation: *Exploring the Benefits of Integrated Corridor Management: The Role of Pricing*

Jiaqi Ma

Dissertation: *En-route Traveler Information Connecting Vehicles and Infrastructure: Prototype, Human Factors, and Information Strategies for Dynamic Traffic Management*

Brian Keith Weaver

Dissertation: *Gas-Expanded Lubricants for Increased Energy Efficiency and Control in Rotating Machinery*

Huanghui Zeng

Dissertation: *Improving Pavement Management and Assessment through Connected Vehicle Technology and Highway Safety Analysis*

COMPUTER SCIENCE

Sirajum Munir

Dissertation: *Integration of Cyber-Physical Systems for Smart Homes*

ELECTRICAL ENGINEERING

Alla Aksel

Dissertation: *Automated Tracking and Analysis of Aerial Surveillance Data*

Naser Alijabbari

Dissertation: *Submillimeter-Wave Quasi-Vertical GaAs Schottky Diodes Integrated on Silicon Membranes*

Robert Richard Benoit

Dissertation: *RF MEMS for Cryogenic Applications*

Lijun Li

Dissertation: *Characterization of Novel Optoelectronic Semiconductor Materials and Devices*

Redwan Noor Sajjad

Dissertation: *Unconventional Carrier Transport and Switching with Graphene PN Junction*

Wenlu Sun

Dissertation: *Theoretical Study and Monte Carlo Simulation of III-V Compound Photodiodes*

Marshall Enow Tabetah

Dissertation: *Computational Study of Molecular Transfer and Nanoparticle Generation in Matrix-Assisted Pulsed Laser Evaporation: the Roles of Solvent and Photochemical Reactions*

Xu Wang

Dissertation: *Resource Assignment for Fiber Optic Networks*

Jinrong Yuan

Dissertation: *Design, Fabrication, and Characterization of Novel Multi-Channel Photodetectors Using Post-Growth Approaches in the Near Infrared and Short-Wave Infrared Regimes*

Chunhu Zhang

Dissertation: *Development of Single-Ended and Balun Integrated Probes for THz Applications*

ENGINEERING PHYSICS

Eun Suk Oh

Dissertation: *Asymmetric Splitting of Bose-Einstein Condensate*

Adam Kyle Woodson

Dissertation: *Ion Composition in Titan's Exosphere via the Cassini Plasma Spectrometer*

MATERIALS SCIENCE AND ENGINEERING

Samuel B. Madden

Dissertation: *The Effects of Permanganate and Other Selected Chemical Inhibitors on Surface and Crack Tip Corrosion*

MECHANICAL AND AEROSPACE ENGINEERING

Matthew Linton Bauer

Dissertation: *Nanostructure Dictating Thermal Transport in Heterogeneous Material Systems*

Saeid Dousti

Dissertation: *An Extended Reynolds Equation Development with Applications to Fixed Geometry Bearings and Squeeze Film Dampers*

Ryan Frederick Johnson

Dissertation: *Multidimensional Reacting Flow Simulation with Coupled Homogeneous and Heterogeneous Models*

Swapnil Pravin

Dissertation: *Fluid Mechanics of Chemical and Flow Sensing in Aquatic Animals*

Mehdi Saadat

Dissertation: *Some Physical Mechanisms for Efficient Swimming*

Curry School of Education

Conferred August 12, 2014

Doctors of Philosophy

William Robert Alexander
Dissertation: *Simulating Science: Using a Computer to Facilitate Conceptual Change for Moon Phases*

Neill Adams Broderick
Dissertation: *Parents of Individuals with Autism Spectrum Disorders: Parental Perspectives and Experiences*

Luke Thomas Donovan
Dissertation: *Rehabilitation Incorporating Gait Training Devices for Chronic Ankle Instability*

Brendan Owen Downey
Dissertation: *The Effects of the Variable Spatial Contiguity of Digital Vocabulary Annotations on Reading Comprehension by English Language Learners at American Universities*

Amir Germain François
Dissertation: *Diversity, Difference, and Contact in Educational Settings: Understanding the Ecological Factors Contributing to Positive Intergroup Relations*

Ingrid Ikka Hakala
Dissertation: *Ethnic Identity and Education in the "New Nepal": An Ethnographically-oriented Study of Limbu "Mother Tongue" Schooling*

Karyn Hartz-Mandell
Dissertation: *Adult-Child Relationships in Preschool: Perceptions, Contributors to Change, and Associated Child Outcomes*

Dallas Hambrick Hitt
Dissertation: *Examining Effective Leader Practices*

Manuela Jiménez Herrera
Dissertation: *A Closer Look at Coaching: What do Coaches and Teachers do in the My Teaching-Partner Coaching Model?*

Jenna Hallie Marshall
Dissertation: *Measurement of Mentors' Perceived Support and Its Relationship to Mentor and Mentee Outcomes*

Tamar Miriam Mintz
Dissertation: *Self Regulation and Children's Relationships with Teachers and Peers in the Classroom: Developmental Pathways and Trajectories*

Emily Bever Nichols
Dissertation: *Incarceration in the Household: New Perspectives on Risk and Prevention*

Tanya Maricima Nichols
Dissertation: *The Association Between Perceived Discrimination and Mental Health Outcomes of African-American College Students: Understanding the Role of Psycho-Cultural Coping Resources in Inhibiting Stress*

Kason Michael O'Neil
Dissertation: *The Creation and*

Validation of the Physical Educator Efficacy Scale for Teaching Lifetime Physical Activities

Victoria Ilonka Phillips
Dissertation: *The Relation of Juvenile Delinquency and Adult Incarceration: Does Parental Incarceration Really Matter?*

Doctor of Education

Justin Adam Malone
Dissertation: *The Relationship Between Collective Efficacy and Suspension Rates in Select Virginia Middle Schools*

Bus stop for accommodative shuttles on Saturday and Sunday – McCormick Road in front of Special Collections Library

The Good Old Song

That good old song of Wah-hoo-wah,

We'll sing it o'er and o'er;

It cheers our hearts and warms our blood

To hear them shout and roar.

We come from old Virginia

Where all is bright and gay;

Let's all join hands and give a yell

For the dear old UVA.
