

One Hundred *and* Eighty-Third
FINAL EXERCISES

UNIVERSITY
of VIRGINIA

The Lawn
May 20, 2012

The University of Virginia is grateful to the 392nd Army Band from Fort Lee, under the direction of Chief Warrant Officer Five Charles H. Vollherbst, for its participation in Final Exercises.

**The degree candidates in this program were applicants for degrees as of May 11, 2012. The deans of the University's schools will make any necessary changes in the awarding of diplomas and/or the conferral of degrees and report them to the Office of the University Registrar for the official records. In addition, distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2011 semester and may be adjusted based on coursework from Spring 2012.*

The August 2011 and December 2011 degree recipients precede the list of May 2012 degree candidates in each section.

Finals Speaker

Katherine A. Couric

Katherine A. “Katie” Couric is an award-winning journalist and TV personality, tireless advocate for cancer research and awareness, and *New York Times* best-selling author. She is well-known for her unprecedented 15-year tenure as co-anchor of NBC News’ *Today* from 1991 until 2006 and for becoming the first solo female anchor of a national nightly news broadcast, as anchor and managing editor of the *CBS Evening News with Katie Couric* from 2006 to 2011. At CBS News, Ms. Couric also contributed to *60 Minutes*, *CBS Sunday Morning*, and primetime specials. She now serves as a special correspondent for ABC News, contributing to *ABC World News*, *Nightline*, *20/20*, *Good Morning America*, *This Week*, and primetime specials. Her new daily syndicated daytime talk show, *Katie*, will premiere on September 10th.

Ms. Couric grew up in Arlington and was graduated from the University of Virginia with honors in 1979. While at the University, she was associate editor of the *Cavalier Daily* and a Lawn resident. She earned a B.A. degree in English Language and Literature and began her broadcast journalism career as a desk assistant at ABC News in Washington, D.C., soon after her graduation. Over the next 10 years, she worked as an assignment editor, associate producer, producer, and political correspondent for CNN, and a reporter for television stations in Miami and Washington, D.C., before joining NBC News in 1989 as deputy Pentagon reporter. In June 1990, she was named NBC’s first national correspondent.

Over the past two decades, Ms. Couric has covered the most important news stories around the world. She has been recognized with numerous awards for her interviewing and reporting skills, including the prestigious Edward R. Murrow Award for Best Newscast for the *CBS Evening News with Katie Couric* twice, the Walter Cronkite Award for Special Achievement for “National Impact on the 2008 Campaign”, the Al Neuharth Award for Excellence in the Media, the George Foster Peabody Award, and Alfred I. duPont Awards for her work individually and for a series she conceived for the *CBS Evening News with Katie Couric*. She also has received six Emmy awards.

After losing her husband to cancer in 1998, Ms. Couric became an advocate for cancer research and awareness. She is a co-founder of Stand Up To Cancer, an organization that has raised nearly \$200 million to accelerate research that can get new therapies to patients quickly. She launched the National Colorectal Cancer Research Alliance with the Entertainment Industry Foundation and cancer activist Lilly Tartikoff to fund cutting-edge research and generate awareness about the life-saving value of screening for colorectal cancer. Ms. Couric also has supported the Emily Couric Clinical Cancer Center here at the University, named for her late sister, who was a journalist and writer before becoming a Virginia state senator.

Ms. Couric lives in New York City and has two daughters.

Frank Batten School of Leadership and Public Policy, *Dean Harry Harding*
College and Graduate School of Arts & Sciences, *Dean Meredith Jung-En Woo*

Final Words to the Class, Ms. Sullivan

Academic Recession, *The Good Old Song*

We request that the audience remain in place until the academic recession has passed. The presentation of diplomas will follow at the locations noted in this program. Degree candidates who do not receive their diplomas at school or departmental ceremonies may receive them at the Office of the University Registrar in Carruthers Hall after 2 p.m., Monday, May 21.

A History of Final Exercises at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 193-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first "Public Day" (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, "confirm" their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in "diploma ceremonies," where the diplomas are presented to the graduates by the deans.

The Academic Procession

The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

Processional Order of Degree Candidates

Schools	Color of Mortarboard Tassel & Banner
Darden Graduate School	
of Business Administration	Tan
School of Medicine	Green
School of Law.....	Purple
Graduate School of Arts & Sciences.....	Black
McIntire School of Commerce	Tan
School of Engineering & Applied Science.....	Deep Orange
School of Architecture	Blue Violet
Curry School of Education	Light Blue
School of Continuing & Professional Studies	White
Frank Batten School of Leadership and Public Policy	Peacock Blue
School of Nursing	Light Orange
College of Arts & Sciences.....	Black

Conferred August 10, 2011

Doctors of Philosophy

BIOMEDICAL ENGINEERING

Joseph Charles Burns
Dissertation: *Cellular Plasticity and Regeneration in the Inner Ear*
Robert Leonard Janiczek
Dissertation: *Measurement of Wall Shear Stress Using Magnetic Resonance Imaging*

CHEMICAL ENGINEERING

Daniel Franklin Sunday
Dissertation: *Polymer Grafted Nanoparticles in Polymer Matrices: Surface Chemistry and Stability*

COMPUTER SCIENCE

Hengchang Liu
Dissertation: *Design and Implementation of an Automatic, Robust, and Efficient Breadcrumb Sensor Network*

Daniel Scott Upton

Dissertation: *Enabling Efficient*

Online Profiling of Homogeneous and Heterogeneous Multicore Systems

ELECTRICAL ENGINEERING

Saurav Basu
Dissertation: *Using Manifold Geometry in Image Analysis: Shape Based Recognition and Pose Tracking*

ENGINEERING PHYSICS

Jianming Shi
Dissertation: *Laboratory Study of Extraterrestrial Ices Electrical Properties and Interaction with Irradiation*

MATERIALS SCIENCE AND ENGINEERING

Elissa Marie Bumiller
Dissertation: *Intergranular Corrosion in AA5XXX Aluminum Alloys with Discontinuous Precipitation at the Grain Boundaries*

MECHANICAL AND AEROSPACE ENGINEERING

Justin Tyler Blair
Dissertation: *Optimal Locomotion of Mechanical Rectifier Systems*

Adam Patterson Steele
Dissertation: *Durable Nanocomposites for Superhydrophobicity and Superoleophobicity*

SYSTEMS ENGINEERING

Mingyi Hong
Dissertation: *Competition and Equilibrium in Resource Constrained Cognitive Radio Networks*

Colleen Suzanne Hughes
Dissertation: *Safety Supervision System Design and Implications for Continuous Subcutaneous Insulin Infusion (CSII) in T1DM*

Christopher Walter Karvetski
Dissertation: *Scenario-Based Preferences with Multicriteria Analysis for Strategic Design*

Douglas Wai-Dak Lee
Dissertation: *Network Flow Models for Strategic Air Traffic Management*

Masters of Computer Science

Tanima Dey
Abhishek Rawat
Chih-Hao Shen
Jeffrey Stephen Shirley

SYSTEMS ENGINEERING

Hyung-Joon Yoon

Conferred December 29, 2011

Doctors of Philosophy

BIOMEDICAL ENGINEERING

Patrick Francis Antkowiak
Dissertation: *Manganese-Enhanced MRI of Pancreatic B Cells in Mouse Models of Type 1 Diabetes*

Lydia Silbajoris Glaw

Dissertation: *The Role of Bone Marrow-Derived Cell PDGF-B Chain in Microvascular Network Maintenance and Remodeling*

Bryan Christopher Thorne

Dissertation: *Development and In*

Vivo Validation of an Agent-Based Model of Leukocyte Trafficking

CHEMICAL ENGINEERING

Bhushan Narayan Zope
Dissertation: *Mechanistic Study of Glycerol Oxidation Over Supported Gold Catalysts*

COMPUTER ENGINEERING

Satyanand Vijay Nalam
Dissertation: *Circuit and CAD Solutions for Optimal SRAM Design in Nanoscale CMOS*

COMPUTER SCIENCE

Jiakang Lu
Dissertation: *SenHome: A Convenient and Inexpensive Sensing System for Improving the Energy Efficiency of Heating, Cooling, and Lighting in Homes*

Duane George Merrill III
Dissertation: *Allocation-oriented Algorithm Design with Application to GPU Computing*

Clinton Wills Smullen IV
Dissertation: *Designing Giga-scale Memory Systems with STT-RAM*

ELECTRICAL ENGINEERING

Alec Jacob Bateman
Dissertation: *Robustness Analysis and Validation Methods for Feedback Control Laws*

Jakob Burner Harmon

Dissertation: *Digital Predistortion for Nonlinear Satellite Channels*

Zhi Li

Dissertation: *High-Power Photodiodes*

Dion Charlene McIntosh-Dorsey
Dissertation: *Integration of Photodiodes with Micro-capillaries for Applications in Fluorescence Detection*

Joseph Frederick Ryan
Dissertation: *On the Robust Design of Sustainably Managed, Reconfigurable Circuits for Ultra Low Energy Systems in Nanoscale CMOS*

Vasudha Chaurey Shukla
Dissertation: *Electrically Guided Assembly of Nanostructures for Bio-Sensing and Tissue Engineering*

Se Young Yoon
Dissertation: *Surge Control of Active Magnetic Bearing Suspended Centrifugal Compressors*

Qiugui Zhou

Dissertation: *Silicon-Carbide-Based Avalanche Photodiodes for Ultraviolet Detection*

MATERIALS SCIENCE AND ENGINEERING

Tabitha Marie Apple

Dissertation: *Quantitative Analysis*

¹ Distinction ² High Distinction ³ Highest Distinction ⁴ Honors ⁵ High Honors ⁶ Highest Honors ⁷ Distinguished Majors Program

of Fatigue Microstructures in Copper Using Transmission Electron Microscopy for Calculation of a Material Nonlinearity Parameter and Comparison with Ultrasonic Testing

Derek John Horton

Dissertation: *The Effect of Structural Ordering on Active, Passive, and Localized Corrosion in Selected Model Alloy Systems*

Rupalee Prashant Mulay

Dissertation: *A Diffraction Based Study of the Deformation Mechanisms in Anomalously Ductile B2 Intermetallics*

Prakash Palanisamy

Dissertation: *Phenomena Associated with Melting and Supercooling in Al and the Solid-Liquid Interface in an Al-Si Base Alloy Investigated by IN-SITU Analytical Transmission Electron Microscopy*

Kiril Rangelov Simov

Dissertation: *Manganese Nanostructures and Magnetism*

MECHANICAL AND AEROSPACE ENGINEERING

Thomas Kent Bliss

Dissertation: *Central Pattern Generator Control of a Tensegrity Based Swimmer*

Daniel Eric Cecil

Dissertation: *Velocity Field Measurements in Rarefied, Hypersonic Flows of Nitrogen Using Laser-Induced Fluorescence of Iodine*

Jae Ho Shin

Dissertation: *Injury and Response of Human Ankle and Subtalar Joints under Complex Loading*

Doctors of Philosophy

Tara Angela Albrecht
 Nursing
 Dissertation: *Supportive Care Interventions for Women with Advanced Ovarian Cancer*
 Jakub Antoni Bielnicki
 Biophysics
 Dissertation: *The Structural Insights into the Workings of the Multidomain, RhoA-specific Gua-*

nine Nucleotide Exchange Factor, PDZRhoGEF

Ayça Boylu
 Philosophy
 Dissertation: *Morality as Understanding Human Beings*

Timothy Raymond Brick
 Psychology
 Dissertation: *(Re)moving Parts: Towards a System for the Separation of Affective Movements in Video Data*

Tristan S. Bridges
 Sociology
 Dissertation: *Liquid Masculinities: Transformations in Gender and Politics among Men*

Joleen Karen Carlberg
 Astronomy
 Dissertation: *Assimilation of Planets by Red Giant Stars*

Joel Adam Carr
 Environmental Sciences
 Dissertation: *Stability and Resilience of Seagrasses in Shallow Coastal Bays*

Wai-Yin Stephen Chan
 Environmental Sciences
 Dissertation: *The Fate of Biogenic Hydrocarbons within a Forest Canopy: Field Observations and Model Results*

Luke William Cole
 Environmental Sciences
 Dissertation: *Inputs and Fluxes of Nitrogen in the Virginia Coastal Bays: Effects of Newly-Restored Seagrasses on the Nitrogen Cycle*

John Jerome Collins
 Religious Studies
 Dissertation: *Worthless Mysteries: Forbidden Knowledge, Culture Heroes, and the Enochic Motif of Angelic Instruction*

Ana Isabel Cornide
 Spanish
 Dissertation: *Los Ruidos del Silencio: Tres Ejemplos en la Tradición del Nuevo Relato Fantástico Latinoamericano*

Sara Louise Corson
 Neuroscience
 Dissertation: *Effects of Competition on the Gustatory Nucleus of the Solitary Tract*

Matthew Anthony Crawford
 Microbiology
 Dissertation: *Chemokine-mediated Antimicrobial Activity Against Bacillus Anthracis: Bacterial Targets and Biological Relevance*

Gregory William Cushing
 Chemistry
 Dissertation: *Hydrocarbon Reactivity on Pt(111): Dissociative Sticking*

¹ Distinction ² High Distinction ³ Highest Distinction ⁴ Honors ⁵ High Honors ⁶ Highest Honors ⁷ Distinguished Majors Program

Graduate School of Arts & Sciences

- Coefficients and Evans-Polanyi Relation*
- Pierre Marie Michel Dairon
French

The Good Old Song

That good old song of Wah-hoo-wah,

We'll sing it o'er and o'er;

It cheers our hearts and warms our blood

To hear them shout and roar.

We come from old Virginia

Where all is bright and gay;

Let's all join hands and give a yell

For the dear old UVA.
