## Finals Speaker

### Robert F. McDonnell

Robert F McDonnell is the 71st governor of the Commonwealth of Virginia. Since taking office in January 2010, Governor McDonnell has focused on job creation and economic development, and has enacted new policies to help spur economic growth in the Commonwealth.

In the 2011 General Assembly session, Governor McDonnell was successful in moving forward his higher education plan that creates the pathway to 100,000 more degrees being awarded in the Commonwealth over the next 15 years. The plan will make college more affordable and accessible for Virginia students. Governor McDonnell has also led on major education reforms to bring more charter schools to the Commonwealth and expand virtual-learning programs.

Governor McDonnell has dedicated his life to public service. He served 21 years in the U.S. Army, both active duty and reserve, retiring as a Lieutenant Colonel in 1997. Upon graduating from law school in 1989 he served as a Virginia Beach prosecutor. Governor McDonnell was elected to the Virginia House of Delegates in 1991 and served 14 years representing Virginia Beach. He was elected as the 44th attorney general of Virginia in 2005.

Governor McDonnell was raised in Fairfax County, Virginia. He graduated from the University of Notre Dame (BBA), Boston University (MSBA), and Regent University (JD and MA). He and his wife Maureen have been married for 34 years. They have five children. Their oldest daughter, Jeanine, served in the U.S. Army, including a tour of duty in Baghdad, Iraq in 2005-2006. Their twin sons, Sean and Bobby, are undergraduate students at the University.

# A History of Final Exercises at the University of Virginia

by Raymond C. Bice, *Professor Emeritus*

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University's 192-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson's original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the board took no action on these requests during Jefferson's lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first "Public Day" (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman's inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today's students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, "confirm" their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in "diploma ceremonies," where the diplomas are presented to the graduates by the deans.

# The Academic Procession

## The Procession

The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

## The Gown

The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

## The Hood

A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

## The Cap

The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

#### Doctors of Philosophy

##### BIOMEDICAL ENGINEERING

Rebekah Anne Neal

Dissertation: *Laminin-based Nanomaterials for Peripheral Nerve Tissue Engineering*

##### CHEMICAL ENGINEERING

Nupur Dutta

Dissertation: *Nanoparticle Stability in Semidilute and Concentrated Polymer Solutions*

Jeremy Norman Fowler

Dissertation: *The Effect of Polymer Additives on Polyolefin Crystallization and Homopolymer Droplet Emulsification*

Yuanzhou Xi

Dissertation: *Layered Hydroxide Catalysts for Transesterification of Tributyrin with Methanol*

##### COMPUTER ENGINEERING

Apala Guha

Dissertation: *Memory Optimization of Dynamic Binary Translators for Embedded Platforms*

##### COMPUTER SCIENCE

Jiayuan Meng

Dissertation: *Breaking the Memory Wall for Highly Multi-Threaded Cores*

##### ELECTRICAL ENGINEERING

Fernanda Adriana Camacho Alanis  
Dissertation: *Electrochemical Fabrication and Characterization of 1 nm-Scale Molecular Device Junctions on GaAs*

Han-Din Liu

Dissertation: *Enhanced High Performance 4H-SiC Avalanche Photodiodes*

Xinmin Liu

Dissertation: *Further Results on the Differential Geometric Approach to Nonlinear Systems Affine in Control*

Huapu Pan

Dissertation: *High-Power High-Linearity Photodiodes and High-Power Photodiodes as Optoelectronic Mixers*

Chen-Nan Sun

Dissertation: *Laser Sintering of Ultra High Temperature Materials*

##### ENGINEERING PHYSICS

Indraneel Samanta

Dissertation: *Photochemical Dynamics and Collisional Activation of Small Molecules on Pt(111)*

##### MECHANICAL AND AEROSPACE ENGINEERING

Keith William Moored III

Dissertation: *The Design of a Novel Tensegrity-Based Synthetic Pectoral Fin for Bio-Inspired Propulsion*

##### SYSTEMS ENGINEERING

Matthew Lee Bolton

Dissertation: *Using Task Analytic Behavior Modeling, Erroneous Human Behavior Generation, and Formal Methods to Evaluate the Role of Human-automation Interaction in System Failure*

Daniel Eli Finkelstein

Dissertation: *Reliability Analysis of Markovian Damage*

Dissertation: *Characterization of Edematous Myocardial Tissue in Post-Infract Mice by T2-weighted MRI*

Patricia Goodale Judy

Dissertation: *Dual Modality Surgical Guidance of Non-Palpable Breast Lesions*

Frank William Mauldin II

Dissertation: *Theory and Applications of Principal Component-Based*

*Signal Separation in Medical Ultrasound*

Abhay Vijay Patel

Dissertation: *Numerical Modeling of Ultrasound Contrast Agents and their Application to Molecular Imaging for Guiding Drug Delivery*

Karin Arianna Rafaels

Dissertation: *Blast Brain Injury Risk*

##### CHEMICAL ENGINEERING

Robert William Deitcher, Jr.

Dissertation: *Application of a Stoichiometric Water Displacement Model and Property-Retention Relationships to Adsorption and Unfolding of Proteins in Hydrophobic Interaction Chromatography*

Jun Liu

Dissertation: *Multi-Scale Evaluation of Bacterial Transport and Chemotaxis in Porous Media*

Maura Ellen McEwan

Dissertation: *Rheology, Microstructure and Diffusion of Polymer-Grafted Nanoparticles in Polymer Melts*

Michael Van Den Bossche

Dissertation: *Development of Highly-Active Catalysts for the Oxidation of Hydrocarbon Fuels in Direct Solid Oxide Fuel Cell Anodes*

##### CIVIL ENGINEERING

*The Good Old Song*

That good old song of Wah-hoo-wah,

We'll sing it o'er and o'er;

It cheers our hearts and warms our blood

To hear them shout and roar.

We come from old Virginia

Where all is bright and gay;

Let's all join hands and give a yell

For the dear old UVA.
